

### RANKING CRITERIA FOR FY03 EQIP

A planned conservation practice will be applied on the following landuse			
LANDUSE	MODIFIER (on the area to be treated)	MAX. SCORE	SCORE
Dry Cropland			
	Is the RKLS or CI>60, or		
	Is there a soil compaction concern?		
	(Locally Added Modifier - Optional)		
	Score Allowed		0
Irrigated Cropland			
	Is surface irrigation currently being used, or		
	Is animal waste being applied?		
	(Locally Added Modifier - Optional)		
	Score Allowed		0
Pasture			
	Is pasture renovation needed, or		
	Is animal waste being applied, or		
	Will a buffer practice be installed?		
	(Locally Added Modifier - Optional)		
	Score Allowed		0
Forest			
	Will harvest activity occur within the next year, or		
	Are there known fish migration barriers that will be eliminated?		
	(Locally Added Modifier - Optional)		
	Score Allowed		0
Range			
	Is water a limiting factor for proper grazing distribution, or		
	Will a buffer practice be installed?		
	(Locally Added Modifier - Optional)		
	Score Allowed		0
Orchard/Vineyard			
	Is surface irrigation being used, or		
	Will the Pest Management practice be included?		
	(Locally Added Modifier - Optional)		
	Score Allowed		0
	Total score for all landuses	0	0
	Number of landuse being addressed		
	<b>Sub Total</b>		0

Other Concerns	Assigned	Allowed
Will planned practices assist the producer in complying with laws/regulations?		
Are there listed terrestrial species occupying the proposed contract area?		
Does the proposed contract area reside:		
- within a shellfish sensitive area?		
- within a contributing area to PM10, dust?		
- within a designated ground water sensitive area?		
- within 1/2 mile upstream of a 303(d) listed stream?		
- If "Yes", are there listed salmonids in the stream?		
(Locally Added Concern - Optional)		
<b>Sub Total - Other Concerns</b>	0	0
<b>TOTAL SCORE</b>	0	0
